SUMMARY

Full-Stack Software Engineer and MCA graduate with hands-on experience designing and deploying scalable web applications, REST APIs, and microservices using Python, Node.js, and React. Proven track record of building production-ready systems, including an AI-powered quiz platform and a Dockerized SLA management system. Strong foundation in DSA, OOP, and cloud workflows, eager to deliver immediate technical impact in high-velocity development teams.

TECHNICAL SKILLS

- **Languages:** Python, Java, JavaScript, TypeScript, NoSQL/SQL
- **Frontend:** HTML5, CSS3, React.js, Next.js, Responsive UI Design
- **Backend & APIs:** Node.js, Express.js, FastAPI, Flask, REST APIs, JWT, OAuth 2.0, Microservices
- **Databases:** PostgreSQL/MySQL, MongoDB
- **Testing:** PyTest, JUnit, Unit Testing, Integration Testing
- **Core CS:** DSA, OOP, DBMS, Operating Systems, Computer Networks
- **Cloud & DevOps:** AWS, GCP, Docker, Git, GitHub, Postman, CI/CD, Vercel, Cloudflare

EDUCATION

Vellore Institute of Technology (VIT) — Chennai, Tamil Nadu
Master of Computer Applications (MCA) - CGPA: 8.19 — 2024–2026

Aryan College — Ajmer, Rajasthan
Bachelor of Computer Applications (BCA) - 67.57% — 2021–2024

EXPERIENCE

MCA Academic Project Intern — QuizForge AI Powered Quiz Assessment Platform *Jul – Dec 2025*
Internship 1

- Designed and developed an AI-powered quiz assessment platform under faculty supervision as part of the MCA academic internship and dissertation.
- Built a MERN-stack application with AI-generated quizzes, timed assessments, automated scoring, quiz history, and performance analytics.

MCA Academic Project Intern — SmartDesk Support Ticket & Management System *Jan – May 2026*
Internship 2

- Designed and developed a support ticket management system under faculty supervision as part of the MCA academic internship and dissertation.
- Built a FastAPI, React, and PostgreSQL application with REST APIs, role-based access control, ticket tracking, SLA monitoring, and Docker containerization.

PROJECTS

Project Management Dashboard *HTML5, CSS3, JavaScript, localStorage*

- Developed a responsive **project management dashboard** using HTML5, CSS3, and vanilla JavaScript, enabling users to organize projects, manage tasks, set priorities, and track deadlines.
- Implemented interactive **Kanban boards** with drag-and-drop task management, CRUD operations, search, filtering, sorting, and task status updates across To Do, In Progress, and Done workflows.
- Built dynamic **dashboard analytics** for task completion, project progress, and overdue deadlines, with **localStorage** persistence, form validation, and light/dark themes for an accessible, responsive user experience.

SmartDesk — Support Ticket & SLA Management System *Python, FastAPI, PostgreSQL, React, Docker*

- Developed a full-stack **support ticket management system** using FastAPI, React and PostgreSQL to manage ticket creation, assignment, status tracking and resolution workflows.
- Implemented **RESTful APIs, role-based access control and ticket search/filtering**, along with SLA deadline tracking to support efficient ticket prioritization and resolution.
- Designed a relational database with appropriate constraints and indexing, and containerised the application using **Docker** for consistent development and deployment.

QuizForge AI — AI-Powered Quiz Assessment Platform *MongoDB, Express.js, React, Node.js, AI API*

- Developed a **MERN-stack quiz platform** that uses an AI API to generate quizzes based on selected subjects, topics, difficulty levels, question types and question counts.
- Implemented **timed quiz sessions, answer tracking, automatic submission and server-side scoring**, with configurable scoring rules and detailed result summaries.
- Built **quiz history and performance analytics** to track scores, completion time and user progress, incorporating structured AI responses and validation to improve question-generation reliability.

CERTIFICATIONS

- Python (Basic) Certification – HackerRank
- Relational Databases Certification – freeCodeCamp
- Meta Front-End & Back-End Developer – Meta
- Cloud Architecture Certification – CDAC
